  Computer Science, **Percent-85%**   **2017-2019**

- **Government Technical High School**   Kannur, Kerala
  State Syllabus, **Percent-90%**   **2014-2017**

EXPERIENCE/WORKSHOP :

- Completed 5-day Internship at Kozhikode Diesel Power Plant, Nallalam.

- Workshop on Wearable Sensors and IoT for Personalized Health Monitoring and Social Computing.

PROJECT:

- **Smart incubator using IOT**   **1 year (7th& 8th Sem)**

Developed a Smart Incubator to replicate the nurturing environment of the womb for preterm babies globally. The incubator provides a warm, heat-retaining environment and enables remote access to infant medical data via internet-connected cloud storage. This system facilitates continuous monitoring of health parameters and proactive care to prevent health issues.

CERTIFICATIONS

- NPTEL Online certification on Electric Vehicles Part-1
- Blender workshop for Beginners
- Online non-credit course authorized by University at Buffalo, offered through Coursera
- Bootcamp of EV HACK 3.0 organised by Bosch Global Software technologies
- Certificate for the completion of C Training
- Participated in expert lecture on Internet of Things covering concepts, architectures, challenges, and opportunities.

SOFT SKILLS

- Self leaner
- Problem-Solving
- Multi tasking
- Team player
